<p>Still can't connect. Caled Mike. He was connected earlier today. He is trying to connect from home. He can't connect either. The opto for UD#3 had been changed. Am going to try to connect after they stop running. Approx. 6 a.m.</p>	Bobbie Wilkerson	9/22/2014 9:17 AM
<p>John called and said nothing is diverting again. Again could not connect to the RSC. No answer on the modem. John was at the VDT and was reading off the errors to me when it happened again. He saw a number of 332, 333, and 430 errors. Suggested he check out operation of UD-3 and UD-4 PEs. He then said they were done running for the night. He also reports a 3B8 error, so I explained that there could also be an issue with PPI-3. He said it seems "loose" so he will have maintenance look at it in the morning.</p>	Bud Van Suilichem	9/22/2014 9:17 AM
