

TUTORING SERVICES NOW AVAILABLE

Dear Parent & Student;

As a student of the FORWARD FOCUS PROGRAM we wanted to share the news of the extended services now offered by ASPIRE.

We are now able to offer TUTORING services for students who may be struggling with their studies, turning in assignments, grade point averages, graduating credits or even online GED or certification programs.

The tutor will work with your child's instructors and teachers to develop an action plan of what needs to be completed or improved and meet with your youth weekly to bring them up to passing levels.

ASPIRE is fortunate to bring onboard our tutor, Mr Chris who has extensive experience in the academic world with tutoring, teaching positions in private and afterschool programs and can handle all high-school subjects to help the students of ASPIRE.

His extensive education and professional experience are supported with degrees in Applied Mathematics, Computer Science, Science and Engineering, and Research and Development will be accessible to assist your student to elevate their grades, academic confidence and motivation to excel in most academic areas for high school and career readiness opportunities

These services are free for your family to utilize and transportation is still available to those in need. Tutoring is available to current and alumni students of the Forward Focus program by appointment.

If your child is in need of services, please contact District Leader, Kimberly Townsend to enroll and schedule an appointment. Chefkimberly@aspirenc.org or call directly at 980-202-2901 Office, 240-723-7001 Cell
